

LTS Surveillance Tower 6M

Multi configuration Offerings

Overview – The LTSUK Rapid Deployment Tower offers a new more flexible approach to rapid deployment surveillance in the CCTV Surveillance Industry. The Tower comes in a multiple number of Surveillance configurations and energy sources in order to meet the requirements of some of the most difficult and remote applications and can actually fit inside a medium sized van or tow with a specially designed trailer. The whole tower can be deployed within minutes by a one person installation team.

Base Tower Design – All in one Steel Box
