

## LT-SUB500-6Z Knife/Metal Arch Detector

### *Affordable Knife Arch & Metal Detection Technology*

*APPLICATIONS – Schools, restaurants, Colleges, Bus Stations, Pubs, Clubs, Festivals, Raves, Shops, Stadiums, Events, Gatherings, Demonstrations.*

**The LTS UK Knife and Metal Detector offer the end user an affordable route into the world of detecting hidden metal on a person entering a confined space or premises**

The cost and trauma of an incident goes beyond a financial cost, with reputation and even lives being on the line. For that reason we developed the LT-SUB500-6Z as an affordable route to detecting hidden metal objects on a person.

#### **Featuring**

- 6 Zones (sensitivity adjustable)
- Alarm strength Indicator
- Password Protection, Tamper Alarm
- Easy assembly, Modular aesthetic design
- Self-diagnostic system (no need to recalibrate)
- Harmless to the human body including pregnancy and people with pacemakers
- No damage to recording tapes or disks
